5	About midway on the south side of the road between the oil refinery and the
7.	nickel plant there was a large saw mill (51-14-30N/58-32-50E). There was a
	nickel plant there was a large saw mill ()1-14-30M/ >0-31-31 and (50 22 20E)
	large brickyard located about one half mile southeast (51-14-10N/58-33-30E)
	of the saw mill.

- 6. The built-up section of Novo Orsk along the north-south railroad track due east of the OCDM plant contained mainly wooden houses and there were several lunchrooms along the main street that traverses this section.
- The built-up area (51-14-30N/58-28-30E) due west of the OCDM plants and southwest of the Gubetlya River contained modern brick apartment buildings.
- The built-up area (51-13-20N/58-30-30E), about one half mile south of the OCDM plants, which is bisected by the main road from Maksay, contained all new six-story brick apartment houses.

POW Camps

- There were three POW camps for men and one POW camp for German women in Novo Orsk. The largest camps, known as the Upper Camp (51-14-55N/58-29-20E) and the Lower Camp (51-14-50N/58-29-25E), were located between the highway and the railroad tracks about one half mile northwest of the OCDM buildings. The Lower Camp had a capacity of about two thousand POWs who were all specialists employed in Orak. The Upper Camp had a capacity of about 1500 POWs.
- The third POW camp for men was located about three tenths of a mile northeast from the brickyard (51-14-20N/58-34-00E) and this camp had a capacity of about one thousand POWs who were mainly used to work in the brickyard and the saw mill.
- The POW camp for German women was located about one mile east northeast from the nickel works (51-15-55N/58-36-05E), and it contained about one thousand prisoners. These women prisoners received the same treatment as the men it appeared that the facilities although were slightly better than they were in the POW camp for men.

50X1

- In the area the north in the area about one mile due north of the Upper Camp and the Lower Camp, there were several kolkhoses that employed 400 to 600 POWs.
- 13. There was a small airport about one quarter of a mile northeast from the nickel works (5--15-33N/38-35-10E) which was for the exclusive use of the manager of in the Orsk area and the nickel works. This was the only airport more than one small plane at it at any particular time.

50X1

50X1

50X1

- 14. About one quarter mile north of the nickel works there were four pipe lines that ran in an east mortheast direction from the oil refinery.
- 15. In old Orsk, the governor lived in a mansion in the park area west and north of the two main streets (51-12-20N/58-34-00E). The administrative buildings for the Orsk area were also located in this general park area.
- 16. A prison for Soviet political prisoners was located across the street from the park at the junction of the main road northeast with the main northwest street in old Orsk (51-12-25N/58-34-15E).
- 17. There were prosperous farms located in the general area southeast of old Orsk and north of the Reka Or. There were also some small farms in the general wooded area west of old Orsk, south of Novo Orsk and north of the Reka Ural.

- e	end
